Testimonials

Having spoken to Tabish myself recently on a personal matter that I have been stuck on for many years. Tabish was able, through his incredibly insightful yet gentle questions, to work me through a process that completely reframed my perspective and enabled me to start to move forward. For those cynics out there, I was very much in that place, until I actually spoke to Tabish!

G Abisgold / LinkedIn

Reflecting on the past 6 months, I want to express my heartfelt gratitude to Tabish Mazhar, my mentor. Together, we explored the depths of the mind, body, and soul, drawing inspiration from diverse philosophies like Sufism, Stoicism, Chinese philosophy, and metaphysical theories. Through this journey, Tabish helped me refine and set realistic goals for my career and personal life.

Asad Khan / NTT Data

I came to Tabish with a lot of inner resistance and procrastination. Coach guided me through answering life's big questions with ease with metaphors and examples from nature and science. That opened up my thinking and I started to feel free from my inner resistance
